

CALIFORNIA TRANSPARENCY IN SUPPLY CHAIN ACT DISCLOSURE STATEMENT

As a company doing business in the State of California, Perimeter Solutions provides the following statement pursuant to its obligations under the California Transparency in Supply Chains Act of 2010.

California Transparency in Supply Chains Act of 2010

The California Transparency in Supply Chains Act of 2010 was enacted to provide critical information to consumers about efforts that companies are undertaking to prevent and root out human trafficking and slavery in product supply chains. These disclosures allow businesses and consumers to make informed decisions about the products they choose to purchase, and the partners they choose to conduct business with.

Perimeter Solutions is committed to conducting business only with suppliers who adhere to the highest ethical standards and comply with laws and regulations applicable to their business. Perimeter Solutions has undertaken the following actions to ensure that services and materials provided to Perimeter Solutions meet these standards.

Supplier Assessments and Qualification

Prior to engagement of a supplier, Perimeter Solutions evaluates a supplier through the RiskRate® system provided by NAVEXGlobal to screen potential suppliers for compliance risks, including risks associated with human trafficking and slavery. The screening is conducted as broadly as possible, including details regarding a potential supplier's ownership, associated parties or affiliated organizations.

RiskRate® continues to monitor and rescreen suppliers with whom Perimeter Solutions is currently doing business with to ensure that these suppliers continue to operate lawfully and ethically.

Supplier Agreements

Perimeter Solutions has supply agreements, service agreements and purchase order terms and conditions with its suppliers. These contracts include agreements to comply with all laws and regulations applicable to the supply of the service or material.

Employee Compliance

All Perimeter Solutions employees are required to comply with the company's Business Conduct and Ethics Expectations.

Supplier Audits, Internal Standards

Perimeter Solutions does not conduct regular on-site audits of its suppliers to confirm they are not in violation of laws regarding slavery or human trafficking.

Perimeter Solutions does not have specific internal standards or procedures for dealing with its employees or contractors who fail to perform properly with respect to issues relating to slavery and human trafficking. However, the company will investigate any reported incidents of non-compliance and deal appropriately and decisively in the event non-compliance is verified.
