FOR IMMEDIATE RELEASE

Solberg Receives Environmental Stewardship Award

Green Bay, Wisconsin - The Solberg Company, a global supplier of firefighting foam concentrates and systems hardware, has received a 2013 Environmental Stewardship Award from the Green Bay Area Chamber of Commerce.

The Environmental Stewardship Award recognizes Solberg for its commitment to develop environmentally sustainable products, and for its state-of-the-art environmentally friendly manufacturing plant, which the company built in the metro Green Bay area in 2011.

“We are honored to receive this award,” said Dennis Kennedy, General Manager of Solberg. “We are profoundly committed to environment-friendly products and manufacturing processes that sustain our fragile environment. Our superior products and advanced manufacturing enable Solberg to fulfill its mission to provide our customers with leading firefighting foam technologies and performance products wherever they are needed.”

Solberg's innovative firefighting foam concentrates enable its customers to be more environment-friendly in suppressing fires. Solberg product brands include **RE-HEALING™ Foam** that is an authentic 100% fluorosurfactant, fluoropolymer-free foam concentrate for Class B fires, and **FIRE-BRAKE™ Foam** which is an environmentally sustainable wild land urban interface foam concentrate for Class A fires, as well as **ARCTIC™ Foam** for class B fires.

Based in Green Bay, Wisconsin, with operations in Bergen, Norway and Sydney, Australia, Solberg has been involved with the manufacture of firefighting foams since the mid-1970s. Solberg is recognized throughout Europe and the Asia Pacific Region for its environmentally sustainable fluorosurfactant and fluoropolymer-free products that are an innovation in Class B firefighting foam. Additionally, Solberg manufactures a complete range of traditional foam concentrates including Class A and High-Expansion foam concentrates and foam systems hardware. Solberg's unique technology is preferred by customers in the aerospace, aviation, chemical, defense, energy, fire services, marine, mining, oil and gas, petrochemical, pharmaceutical, pipeline, solvent & coatings and utilities industries.
